

## BRIAN K. WONG

917-815-2243 | [bwong92@gmail.com](mailto:bwong92@gmail.com) | [Website](#) | [GitHub](#) | [LinkedIn](#)

### SOFTWARE DEVELOPER

My software development journey began while obtaining my MS in Accounting. After learning to code taking data analytics courses, I immersed myself in software development learning Ruby, Javascript, and frameworks to create full-stack applications. I look forward to bringing my experience working in Accounting as part of a team and problem-solving discipline into software development

### TECHNICAL PROJECTS

#### Abibas - [Github](#) | [App](#)

*Built an application that allows users to purchase sporting goods online*

- Designed and created database schema and RESTful API with Active Record, Postgres, Ruby on Rails
- Leveraged Redux and middleware for asynchronous data retrieval from the back end
- Utilized local storage, JWT Auth, and custom validations to create authorization and authentication for users
- Developed the Frontend utilizing Vanilla HTML/CSS to enhance presentation and enhance user experience

#### Better Than Trello - [Github](#) | [App](#)

*A simple application built over 2-3 days that allows users to organize their projects*

- Designed and created database schema and RESTful API with Active Record, Postgres, Ruby on Rails
- Utilized React and Vanilla CSS to build out the front end to ensure smooth user experience

### TECHNICAL SKILLS

**Proficient:** Ruby, Ruby on Rails, SQL, PostgreSQL, JavaScript, React, Redux, Git, CSS, HTML

**Familiar with:** Python, Java, React Native, AngularJS, Typescript

### RELEVANT EXPERIENCE

#### Y Stem & Chess Inc | Jr. Developer

**Dec 2020-Present**

- Developing and maintaining a web application used to teach children with Asperger's Syndrome Chess
- Working with a team of four people to develop web application using AngularJS and Typescript
- Participate in weekly stand-ups and contribute to ideas/features

#### NYC Coders Hackathon for Black Lives Matter | Jr. Developer/Hacker

**June 2020**

- Attended a 4-day event to develop solutions and bring awareness to the Black Lives Matter movement
- Collaborated with a team of 5 to produce a data visualization dashboard that displays NYC police shooting data
- Created components and structured the layout of the dashboard in React to demonstrate how clear the data is skewed

### OTHER EXPERIENCE

#### SL Group, Brooklyn, NY | Private Equity Intern

**Feb 2018-June 2018**

- Identified and prepared summaries for private middle-sized companies that met the desired attributes for acquisition
- Provided financial statement analysis to assess targeted companies' business structure, as well as DCF's to project company outlook over 5 year period

#### Kings County Public Administrator, Brooklyn, NY | Accounting Consulting Intern

**July 2017-Jan 2018**

- Collaborated with a team to troubleshoot, reorganize, and establish internal controls to improve accounting procedures increasing a general fund from less than \$50K to over \$1M and better manage assets of a fiduciary fund of \$100M
- Reviewed high volume of data in documentation to verify accuracy of passed financial statements (going back four years) to reconstruct them for compliance with Governmental Accounting Standards Board

### EDUCATION

Flatiron School, New York, NY | Fullstack program (SQL, Ruby, Ruby on Rails, Active Record, Javascript, React, Redux)

**Dec 2019**

Baruch College, Zicklin School of Business, New York, NY | Master of Science: Accounting | GPA: 3.3

**May 2019**

SUNY Buffalo, School of Management, Buffalo, NY | Bachelor of Science: Accounting

**May 2015**
